Brookfield Commercial Bangalore

4 blocks of G+9 sty commercial buildings of approx. 3 Million sft development. BES has developed bespoke facade system with reveal Cladding, using large size glass panel. Simplified and well resolved pre-construction details has greatly helped successful implementation.

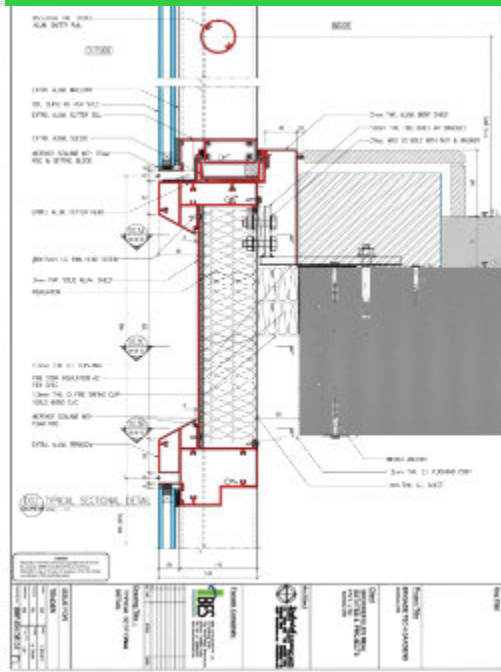

In addition to designs, BES team has played a key role in quality checking and site role, resulted high quality works achieved upon completion.

Key Design elements are

- Unitised system using large glass panel ie, 3.6 M height high performance DGU. Resulted much lesser glass wattages.
- Punch window with Granite stone cladding
- Elliptical shaped Skylight for Atrium
- Entrance facade with double height glazing and canopy

Be-spoke facade system - Detailed Designs and 3D details by BES

Actual Completed details of Reveal feature
